

## About CancerCare

CancerCare is a national nonprofit organization that provides free, professional support services to anyone affected by cancer: people with cancer, caregivers, children, loved ones, and the bereaved. CancerCare programs – including counseling, education, financial assistance and practical help – are provided by trained oncology social workers and are completely free of charge. Founded in 1944, CancerCare now provides individual help to more than 97,000 people and receives 2.1 million visits to its websites each year.
